

## **The Constitution: America's Greatest Strength**

The Constitution helps us all  
It makes us stand and it makes us tall.

It tells us what we're free to do  
It helps us know what's right and true

"We the People" is how it starts  
A promise made to all our hearts.  
It gives us freedom and gives us choice  
It lets us have our own true voice

It says the rules should keep us fair  
And every branch must do its share  
No one has power that's too big  
So we all can dance and sing and gig

When things get tough we look to it  
To guide us through when we don't quit  
It's like a light that shines so bright  
And helps us make things feel just right

It keeps us free and it helps us grow  
It's how we learn and how we know  
The Constitution is our guide  
It helps us stand with hope and pride
