TEACHING THE CONSTITUTION

The Core Of Our Mission

is to educate Americans about the Constitution and the rights and liberties it provides and protects for all of us. We accomplish that mission through several programs, including our keystone program — the national We The Future Contest for kids. We also have an exciting new program that features Constituting America Founder and Co-President Janine Turner, daughter Juliette Turner, speaking in person and via Skype and Google Hangout to classrooms around the country. Our 90 in 90 Study Program: History Holds the Key to the Future is a scholastic study with essays on the founding documents of our country, written by constitutional scholars from the best universities and law schools in the country.

We The Future Contest

We have received entries from students in 47 states and have awarded more than \$160,700 in scholarship funding for the national We The Future Contest winners.

Mentoring Trips

Our student winners have traveled on all-expense paid trips to Philadelphia for performances at the National Constitution Center, participated in educational tours and learned from historical interpreters! They have traveled on Mentor Trips to Hollywood, Nashville, New York and Washington, DC. Our past Mentors include John Rich, Vince Gill, Grammy winning singer / songwriter Lari White; Fox's Bret Baier, Brit Hume, Sean Hannity, and Monica Crowley; film and television star Gary Sinise; film producers Johnathan and Deborah Flora and Michael Flaherty. During the Mentor Trips, students meet with industry leaders, professionally record their winning songs, get filmed for mini-documentaries and music videos and all dine with a Constitutional scholar and attend a two-hour in-depth Constitution Class taught by Constituting America Founder & Co-President Janine Turner and her daughter Juliette Turner, author of the best-selling book *Our Constitution Rocks*.
